## Key Digital Announces Compass Control Pro Partner Alliance with DBX® ZonePRO® 1260

**MOUNT VERNON, NY – November 14, 2017**– Key Digital, the Leaders in Digital Video and control systems, announces an exciting alliance with dbx ZonePRO, the experts in whole-home indoor air quality solutions. Key Digital adds dbx® ZonePRO® 1260 to its extensive and constantly growing list of integration products streamlined within their Compass Control Pro Partner Alliance program.

The dbx ZonePRO Digital Zone Processors were designed to provide flexible programmable zone processing for multi-zone commercial applications. They provide every tool required for maximizing system performance. From signal routing to control to processing, the ZonePRO is a complete multi-zone audio solution.

Engineers at Compass Control profiled the ZonePRO 1260 and completed a bi-directional driver that enables seamless integration of ZonePRO 1260 in the Compass Control environment while greatly reducing the installation time for integrators.

“A control interface is the gateway into a system for a user and delivering the right interface is key to providing a great user experience,” stated Harman Signal Processing’s Installed Sound Market Manager, Iain Gregory. “The support of the ZonePRO natively within Compass Control allows straightforward of user-specific interfaces through the simple step-by-step programming of a Key Digital-controlled ZonePRO audio system.”

Resulting from cooperative efforts between Key Digital and dbx, the integration of the dbx ZonePRO 1260 within the Compass Control environment represents a powerful and user-friendly

comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance™ Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

### **About Key Digital®**

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
