## Key Digital Announces Compass Control Pro Partner Alliance with Denon HEOS Wireless Music System

**MOUNT VERNON, NY – November 14, 2017**– Key Digital, the Leaders in Digital Video and control systems, announces an exciting alliance with Denon, the experts in whole-home indoor air quality solutions. Key Digital adds the Denon HEOS Wireless Music System to its extensive and constantly growing list of integration products streamlined within their Compass Control Pro Partner Alliance program.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Denon HEOS Wireless Music System. These products and profiles are rigorously tested by Key Digital. The Denon HEOS Wireless Music System driver will allow for IP control, now playing information available, full zone control, playback control, audio control, ability to choose music from supported HEOS music services, control multiple devices with only 1 connections to 1 HEOS device.

*Compass Control® users will be able to use their Denon HEOS Wireless Music System with their Compass Control® app. HEOS is a wireless music system that allows you to control all your music effortlessly from anywhere in your home. HEOS gives you access to all your music, and, you can add other users to the lineup to vary the playlist or personalize the room according to the user: His tunes in the kitchen, hers in the master bedroom. Stream from your favorite music service, phone or network..*

*“Resulting from cooperative efforts between Key Digital and Denon, the integration of its Model HEOS Wireless Music System represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.*

### **About Key Digital®**

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
