Key Digital Announces Compass Control Pro Partner Alliance with HouseLogix

MOUNT VERNON, NY – December 15, 2017– Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that HouseLogix is now compatible with the Compass Control System, the first fully integrated major control system.

Key Digital has developed a driver for their Compass Control® system to interface with HouseLogix. These products and profiles are rigorously tested by Key Digital. The HouseLogix driver will allow for arming/disarming security systems and system status of zones/partitions.

Compass Control® users will be able to use their HouseLogix device with their Compass Control® app. The HouseLogix product division designs, develops, and manufactures products and software that serve the home automation industry such as the VoicePod devices and apps. The service division delivers high quality commercial and residential automation installations.

Key Digital is an award winning developer and manufacturer of leading-edge digital video processing and video signal distribution solutions as well as the first fully integrated control system built from the ground up to use iOS and Android, Compass Control Pro. Compass Control Pro offers modular programming or custom design with a blank slate that is limited only by imagination. Compass Control Pro Partner Alliances pre-configured control drivers, modules, and GUI templates integrate instantly and seamlessly to save on precious programming time.

“Resulting from cooperative efforts between Key Digital and HouseLogix, the integration of its plug-and-play solution within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

About Key Digital®

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
