Kaleidescape Server
Module Setup

About:

Kaleidescape provides media storage for music and movies and brings them all together for one great experience!

Setup Communication:

Kaleidescape Servers are equipped with network capabilities. The servers are controlled over TCP/IP on port 10000.

Setup in Compass Navigator:

One module is required per Kaleidescape Server. After adding the module, please enter the IP address of the server. In Zone Construction, place the module as a video source. Once placed, head over to Controlling Flow and drop the server module onto the System Designer.

Setup Complete:

Upload and update project for use.

Control:

Compass Control offers

- Server Controls
    - o   Playback Control
    - o   Function Control
    - o   Numerical Pad
    - o   OSD Controls
