Key Digital Announces Compass Control Pro Partner Alliance with Kaleidescape Products

MOUNT VERNON, NY – December 19, 2017– Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that Kaleidescape Products are now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Kaleidescape Products. These products and profiles are rigorously tested by Key Digital. The Kaleidescape driver will allow for Control over IP, Playback Controls, and Audio/Video Controls

Compass Control® users will be able to use their Kaleidescape Products with their Compass Control® app. For over a decade, Kaleidescape has provided the best way for families to create and share amazing cinematic experiences with the films that they love. Our beautifully designed onscreen user interface makes choosing the perfect movie an entertaining experience for the whole family. Kaleidescape offers the Alto, An all-in-one movie player designed to obtain content exclusively from the Kaleidescape Store, and deliver the full Kaleidescape experience with movies you love, and the Premiere Line, which can be customconfigured for large installations in luxury homes and yachts. The Premiere line allows you to realize your most ambitious design objectives.

Key Digital is an award winning developer and manufacturer of leading-edge digital video processing and video signal distribution solutions as well as the first fully integrated control system built from the ground up to use iOS and Android, Compass Control Pro. Compass Control Pro offers modular programming or custom design with a blank slate that is limited only by imagination. Compass Control Pro Partner Alliances pre-configured control drivers, modules, and GUI templates integrate instantly and seamlessly to save on precious programming time.

“Resulting from cooperative efforts between Key Digital and Kaleidescape products, the integration of its Model 8800 thermostat within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

About Key Digital®

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
