

KD-AMP220

Module Setup Guide

About:

The KD-AMP220 is a 2x20 watt Class-D amplifier with 8 Ω speaker output ideal for installation in presentation spaces. Input connections accommodate microphone, line level balanced/unbalanced, and line level 3.5mm stereo analog audio inputs. The output is a mix of audio from the microphone input and the selected audio input. Microphone and output volume levels may be variably controlled via IR, RS-232, or the front panel, and speaker level output may be set to bridge, stereo, or mono mode. Partnered with Compass Control® Pro users gain the ultimate control experience.

Setup Communication:

The KD-AMP220 is controlled over RS-232.

Setup in Compass Navigator:

In Zone Construction, please drag and drop the KD-AMP220 into the tree. Under controlling flow, drag the KD-AMP220 into the desired MC I/O port.

Setup Complete:

Upload and update project for use.

Compass Control® Pro Offers:

- Bi-directional Feedback
 - Input Switching, Level, Mute, and EQ Controls.
 - Noise gate Control
