Key Digital Announces Compass Control Pro Partner Alliance with Kwikset Electronic Locks

MOUNT VERNON, NY – December 19, 2017- Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that Kwikset Electronic Locks are now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Kwikset Electronic Locks. These products and profiles are rigorously tested by Key Digital. The Kwikset Electronic Locks driver will allow for RS control, lock/unlock door controls, status of door lock available to see if locked or unlocked.

Compass Control® users will be able to use their Kwikset Electronic Locks with their Compass Control® app. With a Kwikset electronic door lock you can use your own personal code to enter your home with just a few simple pushes of a button and lock it with just one. You also get more control over who has access to your home. Just assign a temporary code to whoever needs one and delete it when you see fit. Now you can totally eliminate the need for keys. A SmartCode keyless entry lock is easy to install, program and use and operates on 4 AA batteries. The SmartCode keyless entry lock complements any Kwikset knob, lever or handles set.

Key Digital is an award winning developer and manufacturer of leading-edge digital video processing and video signal distribution solutions as well as the first fully integrated control system built from the ground up to use iOS and Android, Compass Control Pro. Compass Control Pro offers modular programming or custom design with a blank slate that is limited only by imagination. Compass Control Pro Partner Alliances pre-configured control drivers, modules, and GUI templates integrate instantly and seamlessly to save on precious programming time. .

"Resulting from cooperative efforts between Key Digital and Kwikset Electronic Locks , the integration of its Model Smartcode within the Compass Control environment represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment

functionality," stated Key Digital COO, Michael Lakhter. "The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators," Lakhter concluded.

About Key Digital®

Led by the "Father of DVD", Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
