# Marantz Blu-ray Module Setup

## **About:**

Marantz provides excellent blu-ray players with external control that can be controlled from Compass Control

## **Setup Communication:**

Marantz is controlled over RS-232. Please use the 3.5mm to RS232 cable provided with the Master Controller and connect it from Master Controller into the Blu-ray player RS-232 port.

## **Setup in Compass Navigator:**

In Compass Navigator, please drag and drop the module into the corresponding I/O port. No further setup is required.

## **Setup Complete:**

Upload and update project for use.

## **Control:**
