## Key Digital Announces Compass Control Pro

### Partner Alliance with Meridian Servers that run on Sooloos

**MOUNT VERNON, NY – January 24, 2018**– Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that Meridian Servers are compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has configured Meridian Servers that run on Sooloos web app to work with their Compass Control® system. These products and profiles are rigorously tested by Key Digital. The Meridian Servers web app will allow for manage and control music on media server, full control on Meridian web app, create playlist, control playback, and manage queue all on Compass app.

Compass Control® users will be able to use their Meridian Servers with their Compass Control® app. Meridian Servers are extremely easy to connect and set up, it is also virtually silent in use. Simply choose which controller you wish to use – the free iPad or iPhone app, music streaming controller, or your computer. Featuring the full suite of Meridian’s world-leading audio enhancement DSP technology, it is a finely wrought blend of high-level engineering and sublime musical performance.

*“Resulting from cooperative efforts between Key Digital and Meridian, the integration of its Meridian Servers that run on Sooloos represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s COO, Michael Lakhter. “The Compass Alliance Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.*

#### **About Key Digital®**

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
