Middle Atlantic RackLink

Module Setup

About:

Middle Atlantic provides a smart power management system that can be incorporated into Compass Control. RackLink displays a live view of voltage and amperage while providing controls per outlet.

Setup Communication:

RackLink is controlled wirelessly over IP on Port 60000.

Setup in Compass Navigator:

After adding the RackLink Module, under Properties for the device, please enter the username and password for the RackLink Login. If secure login is disabled, then the credentials are not needed.

Setup Complete:

Upload and update project for use.

Control:

Compass Control offers

- RackLink Control
  - o Separate Outlet Control
  - o Relay Controls
  - o Power Management Status
    - Input Voltage RMS
    - Input Voltage Peak
    - Load Current RMS
    - Load Current Peak
    - Watts
    - Power Factor
    - Kilowatt Hours
    - Thermal Load
    - Temperature
