

Middle Atlantic RackLink™ Module Available on the Compass Control®

Middle Atlantic RackLink™ Series are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with Middle Atlantic RackLink™ products. Compass Control® users will be able to control Middle Atlantic RackLink™ products with their Compass Control® app. The module will provide iOS/Android access to all of the power status management, outlet and contact closure control, while having access to a fully integrated control system with additional video, audio, climate and security controls.

Module Features:

- › Bi-Directional Control over IP
- › Power Status Management:
 - › View Watts, Amps, Line, Voltage
- › Outlet Control and Contact Closure Control

Compass Control is a registered trademark of Key Digital Systems.
