

Discover The Possibilities™

Nuvo Professional Series

Module Setup

About:

Nuvo provides these amazing players that bring music to any room of your home. Your music selection is limitless thanks to built-in access to Internet radio as well as a network connection to your personal music collection. To play music in more rooms pair with the P100, P200, P300, P3100, or P3500.

Setup Communication:

Nuvo Professional players are equipped with network capabilities. It is controlled over TCP/IP on port 4747.

Setup in Nuvo App:

Initial setup should be done in the Nuvo App. Please follow all steps to include all players into the system using the Nuvo App. Nuvo also provides Top 10 Favorites that can be customized. Please locate the favorite stations then add them to Top 10 so that Compass Control may easily access them.

Setup in Compass Navigator:

In Compass Navigator, please add only one module for an entire Nuvo System. The Compass Control module will auto-populate all zones that are found in the system. Please insert the IP Address of only one player then drag and drop the module into the project. No further setup is required.

Setup Complete:

Upload and update project for use.
