Key Digital Announces Compass Control Pro Partner Alliance with Onkyo TX Series A/V Receivers

MOUNT VERNON, NY – January 29, 2018—Key Digital, an award winning developer and manufacturer of leading-edge technology for HDTV applications, has announced that Onkyo TX Series A/V Receivers are now compatible with the Compass Control System, the first fully integrated major control system built from the ground up.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® system to interface with the Onkyo TX Series A/V Receivers. These products and profiles are rigorously tested by Key Digital. The Onkyo TX Series A/V Receivers driver will allow for full bi-directional communication, metadata with now playing and music browsing album art, and control of music mode, sources, and onscreen display

Compass Control® users will be able to use their Onkyo TX Series A/V Receivers with their Compass Control® app. The Onkyo TX Series A/V Receivers come backed with by 70 years experience and with an abundant amount of features. Some of those features are, depending on the model: DTS:X™ Ready and Dolby Atmos® Support, 185 W per Channel (6 Ohms), Ultra-Low-Frequency Reproduction for Dynamic Bass, Hi-Current Amp Design for Authentic Sound Reproduction, RS232, IR Input & 12 V Trigger Out, HDMI® 8 In / 2 Out Including 1 Front Zone 2 HDMI® Out, 4K UltraHD / HDR / HDCP 2.2 / 4:4:4 Color Space, Built-in Bluetooth & Wi-Fi® with Pandora, Spotify, and AirPlay, DSD 5.6 MHz, FLAC 192 kHz/24-bit Hi-Res Audio Capable 384 kHz/32-bit Hi-Grade DAC.

“Resulting from cooperative efforts between Key Digital and Onkyo, the integration of TX Series A/V Receivers represents a powerful and user-friendly comprehensive solution delivering iOS-based control and entertainment functionality,” stated Key Digital’s Vice-President of Sales, Michael Lakhter. “The Compass Alliance™ Partners have come together to create a system that has full driver integration already completed, increasing efficiency for integrators,” Lakhter concluded.

About Key Digital®

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
