

Roku® Streaming Players Module Available on the Compass Control®

Roku® Streaming Players are now compatible with the Compass Control® System, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital® has developed a driver and a pre-configured, rigorously tested GUI template for the Compass Control® system to interface with all Roku® Streaming Players. Compass Control® system provides Roku® users with full remote control over all Roku players via elegant, customized iOS/Android interface, while having an integrated control system under their fingertips with additional video, lighting, climate, security, and automation controls.

Module Features:

- › Bi-Directional Control over IP
- › Full Remote Control over all Roku players
- › Full QWERTY Keyboard
- › Channels auto populate on Compass App for quick access
