

Russound MBX Module Setup Guide

About:

The MBX-AMP is a Single-Zone Streaming Amplifier and the MBX-PRE is a Single Zone Streamer that provides streaming services to a room. It also works along with the MCA Controllers and can expand wireless capabilities as an input source.

Module Selection:

If the MBX unit is configured for “Zone Mode”, then please select the Russound MBX-PRE module for MBX-PRE units or the Russound MBX-AMP module for MBX-AMP units.

If the MBX unit is setup in “Source Mode”, then please select the Russound MCA module and refer to the Russound MCA Module Manual for setup.

Setup Communication:

Russound MBX is controlled over IP on Port 9621. In Compass Navigator, please insert IP Address under Device Properties. Please note that Russound MBX units requires a module for each wireless MBX Controller when configured in “Zone Mode”.

Setup Login:

Please setup all streaming service accounts (Pandora, XM, Spotify, etc.) using the Russound app or MBX Web Interface. Login capabilities are limited in the Compass Control App.

Setup Complete

Upload and update the project for use.
