

# Symetrix Zone Mix 761 Module Available on the Compass Control®

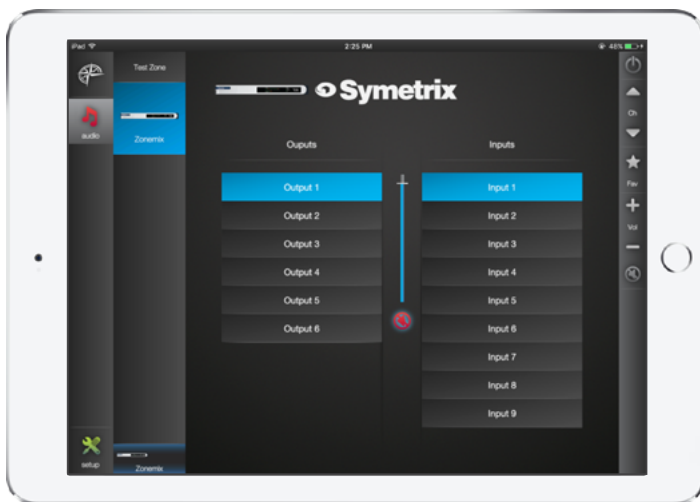

**Symetrix**

Russound® CAA66 Controller Amplifier is now compatible with the Compass Control® Pro system, the first fully integrated major control system built from the ground up to use iOS & Android devices – as its backbone.

Key Digital has developed a driver and a pre-configured GUI template for their Compass Control® Pro system to interface with Symetrix Zone Mix 761 DSP. Compass Control® Pro system gives Symetrix Zone Mix 761 users full control of the all twelve input and six output channels with audio DSP processing: dynamics, feedback elimination, ambient noise sensing, EQ, while having an integrated control system with additional video, lighting, climate, security, and automation controls.

## Module Features:

- › Bi-Directional Driver over RS232
- › Media Source Controls
- › Zone Control
- › DSP & EQ Controls
