Vitek IP Cameras

Module Setup

About:

Vitek provides clear picture IP cameras ready for any job. All IP cameras may be integrated into Compass with a video and audio feed.

Setup Communication:

Vitek Cameras are controlled over RTSP on Port 554. In Compass Navigator, please insert IP Address under Device Properties.

Setup in Compass Navigator:

Compass Control requires the credentials to access the IP Cameras Feed. Under the Properties Tab for the Vitek device, please enter the username and password for the login field. Default login and password will be submitted if not changed.

Setup Complete:

Upload and update project for use.

Control:

Compass Control offers

- Vitek IP Cameras
 - Live View
 - Video and Audio
 - Full Screen Mode Available
