WolfVision Visualizers

Module Setup

About:

WolfVision provides smart visualizers that make teaching a breeze. Any object or image may be projected to a large screen to view.

Setup Communication:

WolfVision Visualizers are controlled wirelessly over IP on Port 50915.

Setup in Compass Navigator:

After adding the Visualizer, under Properties for the device, please enter the IP Address. Please note that each visualizer must have its own module for control.

Setup Complete:

Upload and update project for use.
