

KD-WP8-2 Firmware & Instructions

Please follow this link to download the firmware file, which may be loaded via Web UI or KDMS Pro software:

https://www.dropbox.com/scl/fi/6y160ysijswrj63thl3so/KD-WP8-2_APP_V.1.09_10132023.kdf?rlkey=fyitieu9gcxqv9igs5kjamxit&dl=0

Note: After the firmware update completes, all settings will be erased except network settings and device name.

*** Important. Please read BEFORE updating firmware ***

1. Project will be wiped during firmware load process.
2. Before updating, use Web UI to export project and import after firmware load finishes.
Refer to page 33 of the Programming Guide for instructions.
3. Use the Web UI to import the previous project and re-load to KD-WP8. Refer to page 13 of the Programming Guide for instructions.
