Key Digital to Host Weekly Webinar on Thursdays at 9am EST

“Coffee with Key” offers valuable technical discussions on exciting Key Digital products“

MOUNT VERNON, NY – August 11, 2020 – Key Digital, the leaders in digital video and control systems, announces the launch of the new weekly webinar-format series, “Coffee with Key”. Every Thursday at 9am EST, the half-hour episode will spotlight a specific product from Key Digital’s extensive hardware and software ecosystem with in-depth technical discussions.

“Inspired by past and current webinar feedback, “Coffee with Key” joins the umbrella of our KDLIVE series by branching off on its own to tackle the technical side of the products. By experimenting with the more traditional webinar structure, our team has really explored and pinpointed what formats work best to provide our dealers and integrators with information in a fun and relaxed environment. We are constantly adding to our selection of online content, and we eagerly await the reception of this informative new series,” said Masha Lakhter, COO of Key Digital.

Viewers and participants can expect bi-directional interactions with the Key Digital team via the comments and suggestions features on Facebook live. The staff is always more than happy to accommodate requests for topics sent in advance, and looks forward to diving deeper into a variety of technical discussions on “Coffee with Key”.

The first webinar in the series will launch this week. “Wirelessly Cast from PC, MAC, iOS, and Android with Key Digital’s KDPlay System, KD-BYOD4K” will cover the exciting release of Key Digital’s KD-

BYOD4K and will be hosted on August 13th by Jonathon Ferry, Key Digital’s National Training Manager. Catch all of the action streaming live at Key Digital's Facebook page, on Facebook any time after the live stream, or on the Key Digital YouTube page.

On August 20th the series will feature “Professional USB PTZ Camera System for Work-from-Home, E-Learning, Tele-Health, E-Worship, and Video Conferencing”, and on August 27th viewers can expect, “Ultimate PiP Processor for Man-Caves, Home Theaters, and Conference Rooms.

About Key Digital®

Led by the “Father of DVD”, Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has led the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
